

2013 Edition of the California Building Codes adopting ordinances, with City of Yorba Linda Amendments

The 2013 edition of the California Building Codes are effective on January 1, 2014. Enforcement of these codes by the City of Yorba Linda is mandated by the State of California. The City has made certain amendments to these codes as allowed by state law. These amendments are both administrative and technical in nature and are based upon local climatic, geographic, and topographic conditions in Yorba Linda warrant amending the technical codes. The formally adopted ordinances for the technical code, which include the City of Yorba Linda amendments, are listed below. Click on an ordinance and the full text of the ordinance will be provided.
