

August 11, 2016

The Honorable Tom Lindsey
City of Yorba Linda
4845 Casa Loma Avenue
Yorba Linda, CA 92885

Dear Mayor Lindsey and Councilmembers,

On behalf of Anaergia and Anaheim Energy LLC., I am writing to share with you that today we notified the City of Anaheim of our desire to have a site-specific Environmental Impact Report (EIR) prepared related to our application for the Anaheim Sustainability Center. (CUP# 2014-05752).

Having heard of your request and understanding that a site-specific EIR is important to the City of Yorba, we have submitted our request to the Anaheim Planning Department. While a site-specific EIR was not required as part of our application for a Conditional Use Permit, given our long-standing commitment to the environment and the communities we serve, we are pleased to take this additional action.

We remain committed to an open-dialogue with you and other stakeholders and believe a site-specific EIR will provide additional information and assurances.

Sincerely,

Jim Ambroso

cc. Mark Pulone, City Manager
